

High-Quality Downlights

and LED Modules

LED Modules

Discover the 13 variants of LED modules specifically designed for LEDmaxx downlights. These modules come in different light colors and offer flexible lighting options for any room. The LED modules are energy-efficient and long-lasting, allowing you to fully benefit from modern LED technology. The main advantages are quick installation and shallow installation depth. No additional socket is required. The newest addition to our range is the Warm-Dim version.

Downlights

Our high-quality, adjustable downlights are available in various designs and offer a wide selection of styles. They come in cutout sizes of 68 mm and 75 mm and are available in different colors. Choose between snap rings or bayonet closures. These downlights are perfect for halogen and LED spotlights. We recommend using a LEDmaxx LED module.

	Art. Nr.	EAN	Cutout Size	Colour	Closure	Form
